Skills

Programming Languages

C, Java, JavaScript

Backend Development

Node.js, Express.js, REST APIs, Socket.io, JWT, OAuth, Auth.js, Razorpay, Pino

DevOps & Tools

Docker, Git, GitHub, Postman, Cloudinary, Vercel, Linux, Zod, Scalekit

Frontend Development

React.js, Next.js, Tailwind CSS, Framer Motion, GSAP, HTML5, CSS3

Databases

PostgreSQL, MongoDB, Prisma ORM, Mongoose, Redis

Education

09/2024 – 05/2028 **BTech | 2nd Year | 4th Semester**
JECRC Foundation Jaipur

Projects

RYDEX – Production-Ready Vehicle Booking Platform

Tech: Next.js, Node.js, MongoDB, Socket.io, Auth.js, Razorpay, Pino, Vercel • Built a full-stack vehicle booking platform with role-based dashboards for users and drivers, handling end-to-end ride lifecycle. • Implemented real-time location tracking with Socket.io, video KYC verification, and Razorpay payment integration.

AI Customer Support Chatbot

Tech: Next.js, Node.js, MongoDB, Scalekit : Developed an AI-powered chatbot that answers customer queries using company-provided knowledge. Implemented backend APIs for handling user queries and generating responses. Designed script-based integration so businesses can easily embed the chatbot into their websites.

AI Powered Ecommerce Platform (MERN)

Tech: MongoDB, Express.js, React.js, Node.js : Built a full-stack ecommerce platform with product listing, cart, and order tracking. Implemented Google OAuth authentication and secure user login system. Developed admin dashboard for managing products, users, and orders.

LinkedIn Clone

Tech: React.js, Node.js, MongoDB, Express.js : Developed a LinkedIn-inspired social networking platform with user profiles and post sharing. Implemented authentication and user interaction features such as creating and viewing posts. Built REST APIs to manage users and content.

React Movie App

Developed a movie search app with real-time data fetching from an API. Features include search functionality, dynamic routing, and responsive UI. Tech Stack: React, Tailwind CSS, API Integration

Obys Agency Clone

Created a pixel-perfect clone of the Obys Agency website. Implemented loading animations, smooth scrolling, and page transitions using GSAP + Locomotive Scroll. Tech Stack: JavaScript, CSS, HTML, GSAP, Locomotive Scroll
